

RAW

Oil Spill Response Capabilities for the Insurance Industry

RAW understands the need for responsiveness following a spill incident in order to mitigate environmental damage and minimise clean-up costs.

RAW provides a unique blend of pragmatism and technical know-how, to formulate appropriate, innovative and yet practical solutions to the mitigation and clean-up of spills.

RAW recognises the need for accurate and clear advice on environmental risk issues, potential liabilities and associated cost implications for remedial action throughout the process of an environmental claim.

Who do RAW help?

- Insurers
- Loss Adjusters
- Loss Assessors
- Insurance Brokers
- Tank Manufacturers
- Contractors
